

Shanghi East Botanical Orchid Garden and Peony Garden Ponds Restored (Shanghi) China 2002

BIOFEED SOLUTIONS, INC. FIELD STUDY # ENV-7 "The next generation of probiotic technology"

ANOTHER SUCCESSFUL LAGOON TREATMENT!

In December 2002 Dr. Wen-sen Chu, Director of EITCO (TW), along with BioFeed Solutions, Inc., and Shanghai East China University of Science and Technology have successfully completed an in-situ restoration of Shanghai Botanical Garden's orchid garden (Fig.1) and peony garden water ponds at very low cost. Field observations indicated that key water quality indices were drastically reduced (Fig.2) and the appearance of the water was significantly improved (Fig.3). Two separate seminars were given in December 2002 in Shanghai and Taipei to present the results to the general public.
