Chinese Academy of Agriculture Science Research Base (China)

In March 2003, the Chinese Academy of Agriculture Science conducted a comprehensive study of Biofeed Fertilizer Products to determine their efficacy when applied to a variety of crops.

Final reports are as follows:

- Where:** Chinese Academy of Agriculture Science Research Bases in Shanxi, Shandong, Henan, and Beijing
- When:** 2001/03 – 2001/11 Multiple studies conducted to determine efficacy of Biofeed Pro-Biological Fertilizers for commercial use in Taiwan and China
- Results:** Increased Corn harvest by 19%
Turf grass (Bermuda) growth by 46%
Soybean harvest by 10%
Carrot harvest by 17%
Forage (alfalfa) growth by 11%
